HEEL PAIN

Bellarine Foot and Ankle Clinic based in Leopold, Portarlington and Colac provide quality care for patients suffering heel pain.

Heel is pain is arguably the most common clinical presentation seen within our practice. It can be caused by many different factors and effect people from all walks of life and can be acute (short term) or chronic (long term) in nature. Whether you have heel spurs, plantar fasciitis, bone bruising or nerve entrapment we can help.

Don't let your heel pain prevent you doing what you love!

We will diagnose the cause behind your pain and work to provide an effective solution for you. Our aim is to have you back on your feet as soon as we can.

Our focus in treating heel pain:

1. Accurate diagnosis (radiology imaging or clinically diagnosed).
2. Individually designed treatment options.
3. Reduction of your pain.
4. Long term resolution of your symptoms.
